Primary Clinic Plan

You want a health plan that will help you be as healthy as you can be with friendly, affordable care and coverage. The Primary Clinic plan gives you access to a large network of providers. Plus, you don't need a referral to see a network specialist. No roadblocks, no hassle.

With the Primary Clinic plan, you select a primary care clinic for your medical care, including routine office visits and preventive care. A relationship with a primary care provider, who knows you and your health, is vital to good healthcare. Each family member can choose a different clinic — and switch at any time!
