

# *Ensure compliance with FMLA Leave Administration*

## **FMLA Leave Administration**

Tracking FMLA, especially intermittent cases, is a major burden for most employers. If not managed effectively, FMLA absences can disrupt schedules, impact morale, and negatively affect productivity.

### **With HealthPartners FMLA Leave Administration, you:**

- Decrease the time and effort you and your staff spend on FMLA compliance and administration
- Reduce costs on absence-related administrative expenses
- Remain in compliance with all state and federal FMLA laws
- Actively monitor lost work time and costs

### **Key components of our program:**

- Tracking and management of all types of leave including disability, workers' compensation and FMLA absence
- Collection and evaluation of information regarding the employee's eligibility for FMLA
- Proper notification to all parties involved
- Integration with claims systems for easy access to claims-related information
- Comprehensive reporting captures types and duration of leaves across all employees as well as specific reporting by employee.
