

Cost Comparison Tool

Taking the mystery out of healthcare costs

Saving money is on everyone's minds right now. More than ever, it's important to shop around for your healthcare. HealthPartners makes it easy for you to find and compare doctors, clinics and hospitals on cost *and* quality. Simply use our new cost comparison tool. You'll see prices for 100 common healthcare services offered by 500 clinics and hospitals in the Twin Cities metro area.

Easy access to cost information

The cost comparison tool is quick and simple to use. With just a few clicks, you can look up and compare prices of healthcare services such as:

- Office visits
- Lab services
- Immunizations/vaccines
- X-Rays
- MRI/CT scans
- Pregnancy/delivery

Once you find prices for a service, you can also look up your specific benefits to see how much you can expect in out-of-pocket costs.

Why should I use cost information?

Different providers have different prices for healthcare services. We believe you have the right to know the cost of a service before you visit your doctor.

Cost information helps you plan your budget and save money on healthcare expenses. You can also use the information to ask your doctor about other services that may cost less but work just as well.

Price are very helpful if you have out-of-pocket costs, such as a deductible or coinsurance. It's also important if you have a health savings account (HSA), health reimbursement account (HRA) or flexible spending account (FSA).

Make a choice based on cost *and* quality

Cost is just one factor in choosing a doctor, clinic or hospital. Use **healthpartners.com** to also look up a provider's quality scores and more. Quality scores are based on two key areas: patient experience and the effectiveness of care.

Clinic Name	Typical Cost
Clinic A Minneapolis, MN 555-555-5555	\$105.03
Clinic B Bloomington, MN 555-555-5555	\$129.78
Clinic C Sagan, MN 555-555-5555	\$86.18
Clinic D Minneapolis, MN 555-555-5555	\$112.54
Clinic E St. Louis Park, MN 555-555-5555	\$115.11
