Other important information

Care utilization management programs

Part of helping our patients stay healthy is making sure they get the care they need when they need it. To help coordinate effective, accessible and high-quality health care, HealthPartners uses utilization management programs. These programs are based on the study of patient populations to evaluate appropriate levels of care. They use guidelines for the best medical practices based on the most up-to-date medical evidence.

Our utilization management programs include activities to reduce the underuse, overuse and misuse of health services. These programs include:

- inpatient concurrent review and care coordination to ensure a safe and timely transition from the hospital
- "best practice" care guidelines for selected kinds of care
- outpatient case management to provide care coordination

HealthPartners does not employ incentives that encourage barriers to care and service. Our Outcomes Recognition Program rewards doctors who achieve the highest levels of quality and service to patients.

Our approach to protecting personal information

As a health care system, we comply with federal and state laws regarding the confidentiality of medical records and personal information about our patients. We've developed policies and procedures to ensure that the collection, use and disclosure of such information complies with the law. Whenever necessary, we obtain consent or authorization from our patients, or an approved patient representative, when the patient is unable to give consent or authorization for disclosure of personal information. We give patients access to their own information consistent with applicable law and standards. Our policies and practices are designed to facilitate appropriate and effective use of information, internally and externally, to enable us to serve our patients and improve the health of our patients and the community, while being sensitive to their privacy. If you would like a copy of our privacy notice, please visit healthpartners.com or call Member Services at **952-883-5000** or **1-800-883-2177**.
