

# Frauenshuh Cancer Center

The comfort and care patients and families need to face a cancer diagnosis go far beyond any treatment plan or medical intervention. It requires caring for the whole patient and their family by supporting the mind, body, and spirit. Frauenshuh Cancer Center's world class treatment facility works to heal the body, mind, and spirit through exceptional medical care, medical research, and enhancements to care, including integrative therapies and patient special needs.

Our patient model brings care and services directly to our patients in their own rooms, helping them to conserve energy to do the things that are important to them. This vital integrative care is traditionally not covered through insurance. The generosity of our donors and volunteers gave patients the care and support they needed to face the physical and emotional aspects of cancer.

## What your gift means to Steve

While medical treatment for cancer varies patient to patient, the emotional response is often the same: fear and uncertainty. Your gifts help provide comfort when our patients need it most.

Diagnosed with cancer in October 2022, Steve had to undergo several difficult rounds of chemotherapy. But thanks to gifts from caring people like you, he was able to receive integrative therapy—like aromatherapy, massage and music therapy— that supports the body, mind, and spirit as part of his treatment plan.

“Before I was diagnosed with cancer, I didn’t really know a lot about integrative therapy or how it could help,” Steve shared. “My medical team at Frauenshuh was fantastic, and the added massage and music therapy made my experience even better.”

“I never would’ve thought a guy like me would appreciate music therapy as much as I did, but it really made a difference— helping me relax. I’m so grateful those services were available.”
