Statement of Interest

As a leader in the nonprofit community for the last 30 years and as former Deputy Mayor in the City of St. Paul, I have seen the multitude of challenges that our communities face. Quality and affordable health care is certainly at the top of that list. I've spent my career working in community -- helping to revitalize neighborhoods, build community assets and create access to the everyday supports that are essential to a healthy life. I would bring a strong skill set in organizational management and governance to the HealthPartners board, along with a deep commitment to accessibility and equity for all of HealthPartners' stakeholders.
