NOTICE: THIS DISCLOSURE IS REQUIRED BY MINNESOTA LAW. THIS CONTRACT IS EXPECTED TO RETURN ON AVERAGE 88.3 PERCENT OF YOUR PAYMENT DOLLAR FOR HEALTH CARE. THE LOWEST PERCENTAGE PERMITTED BY STATE LAW FOR THIS CONTRACT IS 82 PERCENT.

Effective Date: The later of the effective date, or most recent anniversary date, of the Master Group Contract and your effective date of coverage under the Master Group Contract.

HealthPartners agrees to cover the services described below. The Benefits Chart describes the level of payment that applies for each of the covered services. To be covered under this section, the medical or dental services or items described below must be medically or dentally necessary.

Coverage for eligible services is subject to the exclusions, limitations, and other conditions of this Benefits Chart and Group Membership Contract.

Covered services and supplies are based on established medical policies, which are subject to periodic review and modification by the medical or dental directors. Covered prescription drugs are based on requirements established by the HealthPartners Pharmacy and Therapeutics Committee, and are subject to periodic review and modification. These medical policies (medical coverage criteria) and formulary requirements are available by calling Member Services, or logging on to your "*my*HealthPartners" account at www.healthpartners.com.

The amount that we pay for covered services is listed below. The member is responsible for the specified dollar amount and/or percentage of charges that we do not pay.

Network Benefits are underwritten by HealthPartners, Inc. Non-Network Benefits are underwritten by HealthPartners Insurance Company.

In HealthPartners Open Access Choice, you have direct access to any Network providers listed in the HealthPartners Open Access Network provider directory.

Coverage may vary depending on whether you select a Network provider or a Non-network provider.

When you use Non-Network providers, benefits are substantially reduced and you will likely incur significantly higher out-of-pocket expenses. A Non-Network provider does not usually have an agreement with HealthPartners to provide services at a discounted fee. In addition, Non-Network Benefits are restricted to the usual and customary amount under the definition of "Charge". The usual and customary amount can be significantly lower than a Non-Network provider's billed charges. If the Non-Network provider's billed charges are over the usual and customary amount, you pay the difference, in addition to any required deductible, copayment and/or coinsurance, and these charges do not apply to the out-of-pocket limit. The only exceptions to this requirement are described below in the "Emergency and Urgently Needed Care Services" section. This section describes what benefits are covered at the Network Benefit level regardless of who provides the service.

These definitions apply to the Benefits Chart. They also apply to the Contract.

Biosimilar Drugs A prescription drug, approved by the Food and Drug Administration (FDA), that the FDA has determined is biosimilar to and interchangeable with a biological brand drug. Biosimilar drugs are not considered generic drugs and are not covered under the generic drug benefit.

Brand Drug: A prescription drug approved by the Food and Drug Administration (FDA), that is manufactured, sold , or licensed for sale under a trademark by the pharmaceutical company that originally researched and developed the drug. Brand drugs have the same active-ingredient formula as the generic version of the drug. However, generic drugs are manufactured and sold by other drug manufacturers and are generally not available until after the patent on the brand drug has expired. A few brand drugs may be covered at the generic drug benefit level if this is indicated on the formulary.

Charge: For covered services delivered by participating network providers, is the provider's discounted charge for a given medical/surgical service, procedure or item.

For the Usual and Customary Charge for covered services delivered by non-network providers, our payment is based on a percentage of the Medicare fee schedule, or a comparable schedule if the service is not on the Medicare fee schedule.

The Usual and Customary Charge is the maximum amount allowed that we consider in the calculation of the payment of charges incurred for certain covered services. You must pay for any charges above the usual and customary charge, and they do not apply to the out-of-pocket limit.

A charge is incurred for covered ambulatory medical and surgical services, on the date the service or item is provided. A charge is incurred for covered inpatient services, on the date of admission to a hospital. To be covered, a charge must be incurred on or after the member's effective date and on or before the termination date.

Copayment/Coinsurance: The specified dollar amount, or percentage, of charges incurred for covered services, which we do not pay, but which a member must pay, each time a member receives certain medical services, procedures or items. Our payment for those covered services or items begins after the copayment or coinsurance is satisfied. Covered services or items requiring a copayment or coinsurance are specified in this Contract.

For services provided by a network provider:
An amount which is listed as a flat dollar copayment is applied to a network provider's discounted charges for a given service. However, if the network provider's discounted charge for a service or item is less than the flat dollar copayment, you will pay the network provider's discounted charge. An amount which is listed as a percentage of charges or coinsurance is based on the network provider's discounted charges, calculated at the time the claim is processed, which may include an agreed upon fee schedule rate for case rate or withhold arrangements.

For services provided by a non-network provider:
Any copayment or coinsurance is applied to the lesser of the provider's charges or the usual and customary charge for a service.

A copayment or coinsurance is due at the time a service is provided, or when billed by the provider. The copayment or coinsurance applicable for a scheduled visit with a network provider will be collected for each visit, late cancellation and failed appointment.

Deductible: The specified dollar amount of charges incurred for covered services, which we do not pay, but a member or a family has to pay first in a calendar year. Our payment for those services or items begins after the deductible is satisfied. For network providers, the amount of the charges that apply to the deductible are based on the network provider's discounted charges, calculated at the time the claim is processed, which may include an agreed upon fee schedule rate for case rate or withhold arrangements. For non-network providers, the amount of charges that apply to the deductible are the lesser of the provider's charges or the usual and customary charge for a service.

This plan has an embedded deductible. The plan begins paying benefits that require cost sharing for the first family member who meets the individual deductible. The family deductible must then be met by one or more of the remaining family members and then the plan pays benefits for all covered family members.

All services are subject to the deductible unless otherwise indicated below in the Benefits Chart.

Formulary: This is a current list, which may be revised from time to time, of formulary prescription drugs, medications, equipment and supplies covered by us as indicated in the Benefits Chart which are covered at the highest benefit level. Some drugs may require prior authorization to be covered as formulary drugs. You may be granted an exception to the formulary that is available to you upon request. These guidelines and procedures include exceptions to the formulary for anti-psychotic prescription drugs prescribed to treat emotional disturbances or mental illness if your health care provider (1) indicates to the dispensing pharmacist, orally or in writing, that the prescription must be dispensed as indicated and (2) certifies in writing to us that the prescribed drug will best treat your condition. Also, you may continue to receive certain non-formulary prescription drugs for diagnosed mental illness or emotional disturbance when our formulary changes or you change health plans for up to one year following the change. We also have written guidelines and procedures for granting formulary exceptions for other drugs that are available to you upon request or on our website.

You or your provider can request an exception to our formulary. If the request is approved, the non-formulary drug you are requesting would be covered. Requests are generally reviewed and responded on the day they are requested. Decisions are made on a case-by-case basis. You or your provider can request an exception using the Prior Authorization/Exception form on our website or by calling Member Services. We review exception requests based on diagnosis, formulary medicines that you have already tried, evidence that the medicine you want to take is effective and medical necessity. If we do not approve your request, you can request an exception review, as described in the Complaints section of the contract.

The formulary, and information on drugs that require authorization, are available by calling Member Services, or log on to your "myHealthPartners" account at www.healthpartners.com.

Generic Drug: A prescription drug, approved by the Food and Drug Administration (FDA) that the FDA has determined is comparable to a brand drug product in dosage form, strength, route of administration, quality, intended use and documented bioequivalence. Generally, generic drugs cost less than brand drugs. Some brand drugs may be covered at the generic drug benefit level if this is indicated on the formulary.

Non-Formulary Drug: This is a prescription drug approved by the Food and Drug Administration (FDA) that is not on the formulary, is medically necessary and is not investigative or otherwise excluded under this Contract.

Out-of-Pocket Expenses: You pay the specified copayments/coinsurance and deductibles applicable for particular services, subject to the out-of-pocket limit described below. These amounts are in addition to the monthly enrollment payments.

Out-of-Pocket Limit:

You pay the copayments/coinsurance and deductibles for covered services, to the individual or family out-of-pocket limit. Thereafter we cover 100% of charges incurred for all other covered services, for the rest of the calendar year. You pay amounts greater than the out-of-pocket limit if you exceed any visit or day limits.

Non-Network Benefits above the usual and customary charge (see definition of charge above) do not apply to the out-of-pocket limit.

Non-Network benefits for transplant surgery do not apply to the out-of-pocket limit.

You are responsible to keep track of the out-of-pocket expenses. Contact our Member Services department for assistance in determining the amount paid by the enrollee for specific eligible services received. Claims for reimbursement under the out-of-pocket limit provisions are subject to the same time limits and provisions described under the "Claims Provisions" section of the contract.

Specialty Drug List:

This is a current list, which may be revised from time to time, of prescription drugs, medications, equipment and supplies, which are typically bio-pharmaceuticals. The purpose of a specialty drug list is to facilitate enhanced monitoring of complex therapies used to treat specific conditions. Specialty drugs are covered by us as indicated below. The specialty drug list is available by calling Member Services, or logging on to your "*my*HealthPartners" account at www.healthpartners.com.

Limitations:

A service shall not be considered a skilled nursing service merely because it is performed by, or under the direct supervision of, a licensed nurse. Where a service (such as tracheotomy suctioning or ventilator monitoring) or like services, can be safely and effectively performed by a non-medical person (or self-administered), without the direct supervision of a licensed nurse, the service shall not be regarded as a skilled nursing service, whether or not a skilled nurse actually provides the service. The unavailability of a competent person to provide a non-skilled service shall not make it a skilled service when a skilled nurse provides it. Only the skilled nursing component of so-called "blended" services (i.e. services which include skilled and non-skilled components) are covered under this Contract.

However, Federal law generally does not prohibit the mother's or newborn's attending

provider, after consulting with the mother, from discharging the mother or her newborn earlier than 48 hours (or 96 hours as applicable). In any case plans and issuers may not, under Federal law, require that a provider obtain authorization from the plan or the insurance issuer for prescribing a length of stay not in excess of 48 hours (or 96 hours).
