EDUCATION

11/2008	Ph.D.	Health Services Research, Policy, and Administration University of Minnesota, Twin Cities
05/1999	BA	Biology, Cum Laude Macalester College, Saint Paul, Minnesota
06/2009		Assorted coursework, Summer Institute in Survey Research Techniques, Institute for Social Research, University of Michigan, Ann Arbor, MI

HONORS/AWARDS

01/2002 - 01/2003	National Research Services Training Award – Agency for Health Care Research and Quality, Department of Health and Human Services
01/2006	Bud Roper Fellowship – American Association for Public Opinion Research
01/2006	Risk Adjustment Conference Scholarship – Division of Health Policy and Management, University of Minnesota, Twin Cities
01/2007	Graduate Student Travel Award presented by the Council of Graduate Students - University of Minnesota
01/2007 - 01/2008	Dissertation Grant – Agency for Health Care Research and Quality, Department of Health and Human Services

05/2012 **Health Policy Impact Award –**
American Association for Public Opinion Research – with the State Health
Access Data Assistance Center

PREVIOUS PROFESSIONAL POSITIONS AND MAJOR APPOINTMENTS

09/2012 – 05/2015 **Manager**, Survey Research Center, HealthPartners, Bloomington, MN

06/2011 – 09/2012 **Associate Consultant –**
Division of Health Care Policy & Research,
Department of Health Sciences Research, Mayo Clinic, Rochester,
Minnesota

05/2009 – 09/2012 **Assistant Professor in Health Services Research -**
College of Medicine, Mayo Clinic

05/2009 – 09/2012 Teaching/Examining Privileges in Clinical & Translational Science -
Mayo Graduate School, College of Medicine, Mayo Clinic

2008-2011 **Research Associate -**
Division of Health Care Policy & Research,
Department of Health Sciences Research, Mayo Clinic, Rochester,
Minnesota

2003 - 2008 **Research Assistant –**
State Health Access Data Assistance Center (SHADAC),
University of Minnesota, Twin Cities, Minneapolis, Minnesota

2002 **Clinical Research Administrative Specialist –**
National Marrow Donor Program

1999-2001 **Quality Improvement Analyst/Health Educator –**
San Francisco Health Plan

PROFESSIONAL & COMMUNITY MEMBERSHIPS, SOCIETIES AND SERVICES

Professional Memberships & Services

01/2006 - Present American Association for Public Opinion Research (AAPOR): member,
reviewer and conference convener

05/2014 - Present International Field Director's and Technology Conference: member,
reviewer and conference convener

01/2015 – Present Midwest Association for Public Opinion Research (MAPOR): member

01/2009 – 09/2012 Minnesota Health Services Research Conference:
volunteer, conference convener, conference planning committee

10/2011 – 09/2012 Midwest Research Network: member

Grant Review Activities

2017-2018	HealthPartners Institute: Internal Grant Review Committee
2013 – 2016	HealthPartners Institute for Education and Research: Health Services Research Review Committee
06/2011	Center for Disease Control and Prevention Accountable Care Act Special Emphasis – Panel Member
03/2012	Robert Wood Johnson Foundation State Health Access Reform Evaluation (SHARE) - Reviewer
2009 – 2012	Mayo Clinic Program in Professionalism and Ethics – Reviewer
08/2012	Patient-Centered Outcomes Research Institute Phase I – Reviewer

SELECTION OF OTHER PROFESSIONAL ACTIVITIES, EXPERIENCES, AND HONORS

2014 - 2016	CHIME TAG (Comparing Health Insurance Measurement Error Technical Advisory Group)
-------------	--

JOURNAL RESPONSIBILITIES

08/2012 – 2015	BMC Medical Research Methodology, Data Collection, Quality and Reporting, Associate Editor
Current	BMC Medical Research Methodology, reviewer Journal of Medical Internet Research, reviewer

EDUCATIONAL ACTIVITIES

Curriculum/Course Development

2011	CTSC 5940: Secondary Data Analysis Mayo Clinic, Rochester, Minnesota
2008-2009	CTSC 5930: A Toolkit to Analyze the U.S. Healthcare System Mayo Clinic, Rochester, Minnesota
2010-2012	CTSC 5820: Introduction to Survey Research Methods Mayo Clinic, Rochester, Minnesota
2007-2009	Social Policy Independent Graduate Study Program in Health Care Administration, A Masters Program for Health Care Executives

SELECT PEER-REVIEW PRESENTATIONS (First or Senior-author, * denotes Senior-author)**

RESEARCH GRANTS AWARDED

Active

De-Implementing Opioid Use and Implementing Optimal Pain Management Following Dental Extractions (Rindal)

Contract Number: U01DE027441

Source: NIDCR/NIH

Role on Project: Co-Investigator

Dates: 09/01/2017-08/31/2020

Opioid medications make a significant contribution to our nation's epidemic of fatal and non-fatal overdoses. Inappropriate prescribing (ie, prescribing opioids when not clinically necessary, or in higher doses or for longer than needed) is a key factor driving the opioid epidemic and requires fundamental changes at the practice level. Millions of dental extractions are performed each year on a wide range of patients. The overarching goal of this project is to de-implement the reliance of opioid analgesics and to implement reliance on non-opioid analgesics to manage postoperative pain following dental extractions. We will compare different strategies to reduce the reliance on opioids and increase the use of alternative pain management approaches utilizing information support tools aimed at both providers and their dental extraction patients.

Optimizing the Value of PROMs in Improving Care Delivery through Health Information Technology (Solberg)

Contract Number: R18HS025618

Source: AHRQ

Role on Project: Co-Investigator

Dates: 09/01/2017-08/31/2022

Despite great interest in patient-reported outcomes measures as a way to improve care, there are few examples of real-life care systems that routinely collect and use such information. We

will partner with a large medical group that is developing such a system in orthopaedics to evaluate it thoroughly. By working with clinical leaders, doctors, and patients, we will learn what outcomes are most important to patients and study the effect of providing this information to patients and their doctors on their satisfaction and on those outcomes.

New York City Clinical Data Research Network (NYC-CDRN) (Ziegenfuss)

Contract Number: No Award No. Provided Source: Weill (Joan and Sanford I.) Medical
College of Cornell University

Role on Project: PI Dates: 09/03/2015-03/31/2016

The goal of the project is to field three different surveys to three cohorts for the NYC-CDRN Cohort Survey Demonstration Project. The cohorts include 1000 adults in a Diabetes cohort, 500 adults in a weight/obesity cohort and 200 adults in a cystic fibrosis cohort, with the goal of 50% completion of the survey.

Testing the Dissemination of Fish Consumption Information – Amendment (Eat Clean Fish II) (Ziegenfuss)

Contract Number: 00E01283 Source: MDH - Minnesota Dept of Health
Role on Project: PI Dates: 06/01/2015-05/31/2016

The goal of this project is to conduct focus groups to test key messages and mode and draft a brochure or other approach to promote consumption of safe, clean fish to women. We will then disseminate the information and evaluate to determine reach and impact.

Tailored Self-Management of TMD Pain using Health Information Technology (TMD PACT R34) (Fricton)

Contract Number: R34DE024260 Source: NIH
Role on Project: Co-Investigator Dates: 07/01/2014-06/30/2016

The purpose of this pilot project is to determine the feasibility of methods and estimate the preliminary efficacy of a tailored self-management program to decrease pain and prevent chronic pain in patients with temporomandibular disorders compared with usual care. This program is designed to educate and engage patients in a 10-week personalized program of exercise and behavioral changes implemented through health information technology.

Computer Assisted Tobacco Intervention for Dental Providers (CATI) (Rindal)

Contract Number: R34DE023895 Source: National Institute of Dental and
Craniofacial Research

Role on Project: Co-Investigator Dates: 09/01/2014-08/31/2016

Smoking has major impact on health in general and also causes gum disease and oral cancer. This planning grant will develop a full proposal that will modify two existing electronic dental record systems (EDRs) to generate recommendations for dentists and dental hygienists to give their patients who smoke. We will examine if dental providers who use the modified EDR will provide more smoking interventions than those who do not have such an EDR and then assess the effects using patient-centered outcomes.

Testing the Dissemination of Fish Consumption Information - New Proposal (Eat Clean Fish Amend) (Ziegenfuss)

Contract Number: 00E01283 Source: MDH - Minnesota Dept of Health
Role on Project: PI Dates: 06/01/2015-08/31/2016

The goal of this project is to conduct focus groups to test key messages and mode and draft a brochure or other approach to promote consumption of safe, clean fish to women. We will then disseminate the information and evaluate to determine reach and impact.

Understanding Tradeoffs between Quality and Cost in a Survey of HealthPartners Patient-Members (Ziegenfuss)

Contract Number: No Award No. Provided
Role on Project: PI

Source: HealthPartners Institute
Dates: 12/01/2013-11/30/2016

Patient surveys are a necessary tool to ascertain self-reported behaviors, beliefs and opinions from large populations and are often used by HealthPartners investigators as well as the broader Health Services Research community. In order to obtain good estimates it is necessary that a representative portion of those that receive the request to participate do so.

Understanding Tradeoffs between Quality and Cost in a Survey of HealthPartners Patient-Members (Survey tradeoffs) (Ziegenfuss)

Contract Number: No Award No. Provided
Role on Project: PI

Source: HealthPartners Institute
Dates: 12/01/2013-11/30/2016

In this study we will compare three different incentive strategies to improve survey response rates among patients. We will also look at the cost per completed survey under each strategy and how accurate the reported data are to allow investigators to make informed decisions in data collection design decisions by truly understanding the tradeoffs between cost and quality.

Summary Measure of Health (Kottke)

Contract Number: No Award No. Provided
Role on Project: Co-Investigator

Source: HealthPartners
Dates: 01/01/2015-12/31/2020

Improving health and well-being is the central focus of HealthPartners's mission; however, measuring these health and well-being is challenging given that health is a construct of the whole person – mind, body, and spirit – and well-being is influenced by personal priorities such as relationships and financial security. HealthPartners currently has over 300 performance measures to assess performance on individual conditions but no overall measures to guide the organization strategy and mission. The goal of the Summary Measures of Health project is to create a valid and meaningful tool that can easily be implemented by other health plans to guide strategic initiatives and compare performance. Ultimately, the measures should help to identify needs, disparities, and performance gaps to aid in addressing the triple aim of improving population health and experience of care while reducing total cost of care.

Completed Projects

Translating Information on Comparative Effectiveness into Practice. (Shah)

Contract Number: R18 HS 18339
Role on Project: Co-Investigator

Source: Healthcare Research and Quality
Dates: 2009-2014

The overall goal of this study is to test the relative merits of a decision aid for diabetes medications that we have developed – Diabetes Medication Choice Cards – versus usual care in translating comparative effectiveness research (CER) into a real world clinical setting. Although the focus of the present investigation is on diabetes, the goal of this study is to evaluate strategies for incorporating evidence into decision making that can be translated to other conditions and populations as well as other CER areas.

Improving the Accuracy of Self-Reported Colorectal Cancer Screening. (Beebe)

Contract Number: R21CA137192-0
Role on Project: Co-Investigator

Source: National Cancer Institute
Dates: 2009-2011

BEACON: Southeastern Minnesota Community Healthcare Information Technology Collaboration. Technology, Department of Health and Human Services (Harper)

Contract Number:

Source: Office of the National Coordinator for Health Information
