Doody Publishing Reviews

Book reviews prepared for Doody Enterprises are presented in a variety of print and electronic publications including those shown below:

- 1) Monthly Journal: Doody's Health Sciences Book Review Journal (1993-2001)
- 2) Annual Summary: Doody's Health Sciences Book Review Annual (1993-1995; textbook)
- 3) Annual Summary: Doody Publishing: A Buyer's Guide to the 250 Best Health Sciences Books (1993-2000)

At present, all major Doody products are offered online.

Doody Enterprises also provides reviews to a variety of professional journals and societies. Currently, four journals license book reviews. In addition, six academic medical institutions and nine professional societies have licenses to the Doody database to provide their constituents with book reviews.

Doody's Review Service publishes in a variety of print and electronic book review periodicals and references which have achieved a worldwide readership of approximately 3,000 medical librarians. Doody also co-publishes a health sciences book review supplement with the American Library Association which makes the reviews available to 26,000 public college and research librarians.

In April, 2002, Doody Publishing sold its assets to Divine, Inc. Doody reviews were distributed as before through Divine, Inc.

In June, 2003, Divine sold its holdings in Doody Publishing and Doody Enterprises was created for management and distribution of the book reviews and website data related to book reviews.
