

## Welcome Regions 2018-2019 PGY-1 Pharmacy Residents!

Eric Berg is originally from Maple Grove, MN. He received his Bachelor of Science in Biology and Doctor of Pharmacy degrees from the University of Minnesota – Twin Cities. His pharmacy interests include critical care, infectious diseases, and emergency medicine. Outside of pharmacy, he enjoys traveling, backpacking, and cooking.

My name is Matt Dustrude. I grew up in New Berlin, WI and then went to UW-Madison for my undergraduate training where I received a degree in biochemistry. I recently graduated from pharmacy school at the University of Minnesota-Twin Cities in 2018. Clinical interests of mine include infectious disease, critical care, internal medicine, emergency, etc. For fun I like to travel, play tennis, bike ride, watch Netflix, tour breweries around the Twin Cities, and spend time with my partner, Erin.

My name is Ashley Fike and I recently graduated from the University of Minnesota College of Pharmacy. I was fortunate as a student to have my acute care rotation with some of your wonderful pharmacy staff, and I'm very excited to start the Regions PGY1 residency program this summer. My pharmacy interests include critical care and infectious disease, with additional professional interests in public health pharmacy. In my free time I enjoy going to the MN Opera, cooking/baking, going to concerts and museums, and spending time with friends. I would have to say I enjoy Minnesota summers much more than Minnesota winters and you are more likely to find me kayaking, rollerblading, biking, or at the cabin instead of skiing or snowboarding. I look forward to seeing everyone again, and for the opportunity to grow with you both personally and professionally this next year.
