

HealthPartners Longitudinal Pediatric Nurse Practitioner Experience

Experience Description

Students train at dedicated centers where preceptors have the passion, skills, and time to teach among interprofessional teams enacting best practices. Fewer students over a longitudinal period (9-12 months) immerses them into the culture of HealthPartners, facilitates recruitment and streamlines administrative support.

Length of Experience: 12 months **Number of Students:** 1 **Starting Date:** January 31, 2022

Continuous Enrichment

Students will take part in a high quality tailored orientation and will receive ongoing support to best prepare them. During the experience, students will also be part of additional learning opportunities to further grow as a practitioner beyond their clinical skills.

Clinical

All clinical rotations will occur at Maplewood Clinic with preceptors from the specific specialty.

12 month clinical rotation schedule:

- 16 weeks – Family Medicine
- 8 weeks – Women’s Health
- 12 weeks – Geriatrics
- 6 weeks – Family Medicine
- 6 weeks – Pediatrics
