

OHPE Update:

A Newsletter for Residents, Students,
& Clinician Educators

August 2022

From the Office of Health Professional Education

We're excited to start the new academic year after a busy summer of welcoming new colleagues, residents and fellows, and celebrating (many in person, after two years of virtual celebrations!) with our 2022 program graduates. The New Resident Orientation was also in person for the first time in two years, and we welcomed 39 new residents and fellows into 12 of our sponsored programs.

An updated 2022-2023 program contact list is available [here](#) and our annual list of residents and fellows rotating at HealthPartners for the academic year is available [here](#). (2022-23 covers the academic year from 7/1/22 - 6/30/23). Please note, for the most up-to-date information on a specific resident/ fellow rotation, you should contact the appropriate program coordinator.

Upcoming Events

The 2022 MMCGME Coordinator Conference will be held on Friday, September 9, 2022: Conference registration is now open ([Register here: 2022 MMCGME Coordinator Conference](#))

GME/OHPE Administrative day

Every year in August, we celebrate GME/OHPE Administrative Professionals Day, dedicated to recognizing the hard work of GME professionals. Make sure to share appreciation to coordinators and administrative professionals for the incredible work they do to support the training of health professionals.

Our ability to train residents, fellows and students depends on these colleagues, the professionals that make it all happen! This work is often behind the scenes in ensuring that each learner has the opportunity to thrive during their training .

OHPE Announcements

Observer experiences are back and tracked through SS4L application

We are excited to announce that HealthPartners has transitioned to using the SharedSpace4Learning application to track and manage observation experiences (in addition to its current student functionality).

Observer experiences for anyone outside our organization had been on hold since the beginning of the COVID-19 pandemic. This is an exciting opportunity for our organization to continue workforce development by expanding the capabilities of our SharedSpace4Learning application. To learn more about the new observer experience in SS4L, visit the [Observer page](#) on myPartner.

APC Fellowship Programs Info Night engages program alumni, faculty, and fellows

The APC Fellowship Programs Info Night was an opportunity for our APC Fellowship team to share information about our 6, going on 7, APC fellowship programs, as well as provide info about the recruitment cycle and how to apply for our programs. One of our most recent Primary Care APC Fellowship graduates Claire Adamski, PA-C, also joined to share her experience with the fellowship and why she participated and what she gained from being in the fellowship program.

The session was virtual, and a recording of the session is available [here](#).

New Diversity, Equity and Inclusion Terminology guide available on myPartner

The "Diversity, Equity and Inclusion Terminology" originally was created by the Communications and Diversity & Inclusion teams to provide standards and usage guidance on terms that may be encountered when creating and/or editing content. Guidance is provided by the following members of the [Equity, Inclusion and Anti-Racism Cabinet](#): Toweya Brown-Ochs, Dr. Steve Jackson, Nance McClure, Vince Rivard, Andrea Walsh, DeLinda Washington, Dr. Yeng Yang. This team meets regularly to update and maintain this style guide. Link to the guide here: <https://intranet.healthpartners.com/equity-inclusion/Pages/DEI-Terminology-Guide.aspx>

People Updates

Gretchen Jackson, in her new role as OHPE supervisor, will lead development and support of training program associates and will serve as liaison for education to remove barriers and streamline coordination workflows. She will lead current team members to continue support of training programs across the HealthPartners system.

Gretchen joins OHPE after serving in a role of Program Manager for our very own HealthPartners Dermatology Residency Program. Gretchen was instrumental in the development of the Dermatology Residency which celebrated its first ever graduating class this academic year in June of 2022! Her experience includes time working in the central GME Office at the University of Minnesota and as an administrator and program coordinator for the Division of Cardiology in the University of Arizona's College of Medicine. Gretchen has a demonstrated commitment to supporting education aligned with the values of HealthPartners. .

Sarah Wilwert has accepted the position of Program Associate for the HealthPartners Institute Dermatology Residency

Sarah has had 11 years of clinical experience as a Certified Medical Assistant, with her most recent time in the Dermatology department at the HealthPartners Specialty Center in St. Paul where she was part of the care team for the Residency's Program Director and residents. We are eager to introduce her to the world of medical education!

Pam Coppa began a newly created role as System Administrator for the SharedSpace4Learning Platform within our Office of Health Professional Education at HealthPartners.

The SharedSpace4Learning System Administrator leads the design, development, implementation, and maintenance of the SharedSpace4Learning student management system. This role partners and prioritizes with others to create new features that enhance the learning experience at HealthPartners. Using an iterative process of design, implementation, and feedback, the system administrator delivers value by creating efficiency, connection, and gaining insight for future support of HealthPartners priorities.

We are excited to have Pam facilitate and lead new ways the SharedSpace4Learning platform can add value through simplicity and efficiency for our student, observer, and mentor processes.

Pam comes with over 17 years of experience in supporting Graduate Medical Education programs. She is currently serving as the Affiliate Education Coordinator supporting resident and student onboarding and has created trusted connections across our HealthPartners system. Pam has been a regular part of the SharedSpace4Learning development team providing feedback and ideas bringing new functionality to life. Her attention to detail and a focus on serving others while recognizing the potential this platform can offer makes her an ideal person for this role.

For questions, comments or suggestions about the SharedSpace4Learning platform, we encourage you to email SharedSpace4Learning@HealthPartners.com.

Program Updates

The HealthPartners Clinical Simulation Center/Regions Hospital is moving to a new space!

We are excited to move forward with the planning and execution of the project to relocate the Simulation Center location from 7th floor central section to 1st Floor North (where the old therapy pool used to be). The design process is underway with projection to begin construction in early 2023. We'll share updates on this project as timeline milestones are developed.

PGY-2 Resident Ashley Nadeau represents delegation at AMA annual meeting

This summer, HealthPartners Occupational Medicine Program resident Ashley Nadeau attended the [Minnesota Medical Association's Annual Meeting](#) of the House of Delegates (HOD) in Chicago, representing the first in-person meeting since the start of the COVID-19 pandemic.

The Annual HOD Meetings bring together a community of roughly 700 passionate elected individuals (medical students, residents, fellows, and physicians representing state or national societies) to review resolutions and vote in elections of new members, with the goal of implementing new AMA policies that will impact physicians, patients, and the health care system at large.

Dr. Nadeau is a member of the MMA RFS Governing Council as an at-large representative ex officio voting member. She is a PGY-2 resident in the occupational and medicine residency program and attended the AMA RFS Annual HOD meeting as an Alternative Delegate and actively participated on the floor debates.

TRIA fellowship program hosts traveling fellows

The TRIA Sports Medicine & Shoulder Fellowship Program hosted the ESSKA-AOSSM DJO Traveling Fellows last month together with the University of Minnesota Department of Orthopaedic Surgery.

These future leaders in their field spent three weeks in the US connecting with peers from another continent. We are honored to have been chosen as a stop on the tour.
