

# GREGORY S. KNOWLTON

8170 33rd Ave S, Bloomington, MN 55425 • work: (952) 883-5794

## EDUCATION

---

<b>University of Minnesota School of Public Health</b> , Minneapolis, MN MS in Health Services Research, Policy & Administration <i>Area of Emphasis: Decision Sciences</i>	August 2022 GPA: 3.88/4.00
<b>University of Minnesota School of Public Health</b> , Minneapolis, MN MS in Biostatistics	May 2022 GPA: 3.96/4.00
<b>Amherst College</b> , Amherst, MA BA in Chemistry <i>Magna Cum Laude with Distinction, Phi Beta Kappa</i>	May 2015 GPA: 3.93/4.00

## RESEARCH EXPERIENCE

*Graduate Research Assistant*

**University of Minnesota Division of Health Policy & Management**

**January 2019-Present**

Faculty Advisor: Eva Enns, PhD

- Co-developed *dampack*, an R package for conducting cost-effectiveness analysis using decision-analytic simulation models. Published package on CRAN and wrote accompanying manuscript currently in submission to Medical Decision Making.
- Co-developed the Minnesota COVID-19 Model in collaboration with the Minnesota Department of Health during the early stages of the pandemic. Contributed primarily to model calibration, quantifying uncertainty, and the creation of tables and figures for Governor Walz's public addresses and other press releases.
- Estimated the cost-effectiveness of public health interventions targeting the PrEP cascade of care through simulation modeling rooted in network statistics and real-world data.
- Characterized enrollment dynamics for Washington State's HIV drug assistance program through survival analysis of claims data.

*Graduate Research Assistant*

**University of Minnesota Division of Biostatistics**

**June 2018-September 2019**

Faculty Advisor: Julian Wolfson, PhD

- Harmonized and pooled data from two RCTs investigating use of losartan to improve immune recovery among persons with HIV. Executed statistical analyses of pooled data and prepared figures and tables to summarize findings.
- Estimated the potential population health benefit of ECMO-facilitated resuscitation for the treatment of out-of-hospital cardiac arrest in the Twin Cities.

## TEACHING EXPERIENCE

*Graduate Teaching Assistant*

**University of Minnesota School of Public Health**

Statistics for Health Management Decision Making

Biostatistical Literacy

**June 2021-August 2021**  
**September 2017-August 2018**

## SKILLS

*Computer:* R, R Shiny, Python, SAS, Stata, SQL, Git, Linux, Unix, Microsoft Office
