Take it from our residents

"The preceptors that I worked with were supportive and invested in my learning while also consistently challenging me to grow as a pharmacist.

– Damon P.

"The preceptors here have played a pivotal role in shaping my clinical development, challenging me, encouraging my growth, and fostering an environment where I feel supported and motivated to continue pushing myself further.

– Kelly C.

"Regions develops residents into independent clinical pharmacists with a strong knowledge base of critical care and non-critical care topics.

– Brittney S.

About our hospital

Based in St. Paul, MN, Regions Hospital provides comprehensive, award-winning care in a wide range of specialties. With 500-plus beds (120 dedicated to mental health), we care for our community's most critical health needs. This includes a Level 1 Adult & Pediatric Trauma Center, nationally recognized Burn Center and comprehensive Stroke Center. Learn more at **regionshospital.com**.

Regions Hospital

Choose Regions Hospital for your residency

Residency programs at Regions Hospital offer you many benefits, including:

- Progressive clinical pharmacist practice setting
- Preceptors with a passion for teaching
- Variety of rotation experiences across a wide range of specialties
- Multidisciplinary and layered learning environment
- Focused training to promote critical thinking, communication and leadership skills
- Support for local, regional and national professional meeting attendance

ashp Accredited

PGY-1 Pharmacy Program

- Provides a strong internal medicine and critical care core with a range of required and elective specialty experiences
- Elective rotations include burn, emergency medicine, infectious disease, psychiatry, additional critical care, and more
- Most clinical rotations include multidisciplinary rounding opportunities
- Active participation in emergency response
- Longitudinal staffing provides well-rounded experiences in inpatient and sterile products dispensing as well as decentralized clinical areas

ashp Accredited

PGY-2 Critical Care Pharmacy

- Offers a strong core of critical care experience in adult medical and surgical critical care, emergency medicine and burn
- Unique elective opportunities including pediatric intensive care and toxicology
- Active participation in interdisciplinary critical care specialty committees
- Longitudinal staffing focuses on clinical practice independence

ashp Accredited

PGY-2 Psychiatric Pharmacy

- Offers a strong adult inpatient psychiatry core with exposure to all major mental health disorders in an acute setting
- Elective opportunities available in emergency psychiatry, consultation-liaison psychiatry, addiction medicine and outpatient partial hospitalization program
- Opportunities to lead patient education groups and teaching experience in partnership with the University of Minnesota
- Longitudinal staffing focuses on clinical practice independence
