Dear Colleague,
We invite you to attend the Otolaryngology for Primary Care conference on Friday, November 18. We have chosen speakers with expertise in their fields to provide you with practical assessment and treatment advice on the most up-to-date pediatric and adult otolaryngology topics.

The format includes didactic lecture, audience response system, and Q & A. Participants will also be provided with the “Top Ten” Pediatric and Adult Pearls. Please take a few minutes to review the program agenda. We look forward to your participation.

Who Should Attend
This conference is designed for primary care health professionals who seek up-to-date information on pediatric and adult otolaryngology topics.

Objectives
At the conclusion of this conference, participants will be able to:
- Discuss the complications of untreated otitis media and indications for surgical treatment for recurrent acute otitis media.
- Recognize the symptoms most associated with acute and chronic sinusitis.
- Discuss the physiology of sleep apnea and the different testing terminology used in the workup of sleep apnea.
- Describe the differential and workup of patients with neck mass.
- Summarize the most common diseases that cause acute vertigo.
