

# Primary-Specialty Plan Open Access Network

## About your plan

With HealthPartners Primary-Specialty plan, the amount you pay for care depends on what type of doctor you see. If you go to a primary care doctor, your copay will be lower. If you go to a specialist, you'll pay a higher copay.

Here are some examples of primary and specialty doctors:

Primary care doctors:	Specialty doctors
Family and general practice	OB/GYN
Internal medicine	Cardiology
Pediatrics	Ear, nose, & throat (ENT)
Geriatrics	Dermatology
Mental and chemical health	

You also have nationwide network access to many services like:

- Convenience and online care
- Hospital care
- Specialty care—no referrals needed
- Prescription medicines
- Preventive care

## How your plan works

Learn more about how the Primary-Specialty plan works by using this chart with your Summary of Benefits and Coverage (SBC). This chart highlights SBC information people find most useful when picking their health plan.

Your Primary-Specialty plan	
<b>Your network</b> - where can I go to the doctor?	Open Access network SBC Page 1
<b>Your deductible</b> - if I have a deductible, how much is it?	SBC Page 1
<b>Your out-of-pocket limit</b> - what's the most I will pay for health care?	SBC Page 1
<b>Your office visit costs</b> - how much will I pay for office visits?	SBC Page 2
<b>Your special tests</b> - how much will I pay for MRIs, CT Scans and X-rays?	SBC Page 2
<b>Your emergency needs</b> - how much does it cost to go to urgent care or the emergency room?	SBC Page 3

Plus, routine preventive care is typically covered at 100 percent. Please check Page 2 of your SBC for more details.

## Find a doctor in your Open Access network

When it comes to your health care, finding the right doctor is really important. To see if your doctor is in the Open Access network or to find a new one, you can:

- Visit **healthpartners.com** and search the Open Access network. Search for doctors by name, clinic name, specialty, language, gender, hours of business, and more.
- Learn how doctors rate on cost and quality so you can make the best choice for you.
- Choose from more than 700,000 doctors and other care providers, plus 6,000 hospitals in the United States.
