MARCH 2012

## Service Expansion at Arden Hills Clinic

We're pleased to announce the addition of several new services at our Arden Hills Clinic:

- DOT Exams
- Fitness for Duty Exams
- Simple Preplacement Exams

These services are in addition to the work injury-care service we've been providing for the past year.

We're open to provide these Wednesday from 8:00 AM until 1:00 PM.

We don't currently have the capability of providing audiometric testing, drug/alcohol screening, spirometry or respirator fit-testing. However, as the clinic becomes busier we'll explore the possibility of adding these services and expanding the hours of operation.

Please let us know if you have any questions or comments about our Arden Hills operation.

## Employee Health and Well-being from HealthPartners

### What We Do

We're your strategic partner to design and deliver effective well-being programs that engage employees, improve health and drive results. Our proven, best-in-class solutions reduce health care costs and improve productivity.

## Dr. Kevin Wall Joins the Team

We're thrilled to announce that Dr. Kevin Wall will join our team beginning mid-June. Kevin has over 15 years of experience in Occupational Medicine, most of it with Park Nicollet Occupational Health (working alongside Drs. Gorman and Parker). He's taking the place of Dr. Ralph Bovard who's moving into an Orthopedics role at the University of Minnesota.

Dr. Wall will work primarily from our St. Paul clinic, with some hours at Riverside; he'll also cover our Wednesday hours at Arden Hills. He enjoys all aspects of occupational medicine, from pre-placement exams and the care of work injuries to medical monitoring and fitness for duty exams.

In his spare time he plays golf and some mean jazz on his drum kit.

Like all the doctors in our department, Dr. Wall is committed to you, our customers, and his patients. Please feel free to ask any questions you may have about services we've provided.

## Did You Know.....

Surveys typically indicate that a large percentage of overseas business travelers do not see a physician in advance of their travels; an alarming number of travelers to malaria-endemic regions don't take malaria prevention medications. To help address this unmanaged risk, HealthPartners Occupational Medicine will facilitate access to our two fully-staffed Travel Medicine Clinics; West Clinic (St. Louis Park) and the Specialty Center (St. Paul). Both stand ready to assist with immunizations, including Yellow Fever, as well as medical counseling, prescriptions and MD clearance exams.

For help with your travel medicine needs contact Kirk Hyatt at 952-541-2619.
