About Regions Hospital

Established in 1872, Regions Hospital is a private, not-for-profit organization. The hospital provides health care services in St. Paul and its surrounding communities, as well as for patients from throughout Minnesota, western Wisconsin and other Midwestern states.

Part of HealthPartners family of care

Established in 1872, Regions Hospital is part of HealthPartners, the largest consumer-governed, non-profit health care organization in the nation. HealthPartners serves more than 1.4 million medical and dental members nationwide. Since the combination with Park Nicollet Health Services in 2013, HealthPartners care system includes 1,700 physicians, 60 dentists, five hospitals including Regions, 50 primary care clinics, 21 dental clinics, 21 urgent care locations and specialty practices in Minnesota and western Wisconsin. HealthPartners family of care also includes the Institute for Education and Research. Regions is the largest private employer in St. Paul.

Level I Trauma Center for adults & children

Regions is one of only three hospitals in Minnesota that is verified as a Level I Trauma Center for both adults and for children with the expertise and technology to treat the most serious injuries 24/7.

Nationally recognized burn center

The Burn Center at Regions was one of the first in the nation and today is one of only two burn centers in Minnesota verified by the American Burn Association and the American College of Surgeons.

Commitment to mental health

Regions is one of the largest providers of mental health care in Minnesota. An eight-story mental health building, which opened in 2012, reflects a new model of care and offers a healing environment with 100 private rooms.

Largest provider of charity care in east metro

Regions is the second largest provider of charity care in Minnesota. In 2011, Regions provided \$16.2 million in uncompensated services to care for 43,000 patients.

Training future doctors

Regions and HealthPartners Institute for Education and Research partner with the University of Minnesota medical school to train almost 500 resident physicians annually.

Award-winning care

- Leapfrog 2012 Top Hospital, the most competitive hospital quality award in the country
- Recipient of the 2012 HealthGrades Emergency Medicine Excellence Award for having one of the lowest risk-adjusted mortality rates in the nation
- One of America's 100 best hospitals for pulmonary, stroke and critical care by HealthGrades
- One of health care's "Most Wired" by *Hospitals & Health Networks* magazine
- One of the top-performing hospitals in the nation for heart attack, heart failure, pneumonia and surgical care by The Joint Commission

Best Care Best Experience

Regions' patient satisfaction scores are in the top 25 percent in the nation according to NRC Picker, which is the industry's leading source of patient satisfaction measurement.

Specialized Services

From allergy to vascular surgery, Regions Hospital has top specialists in more than 50 areas of medicine. Our specialties include:

The Birth Center has obstetricians with advanced training for complex deliveries, one of the state's largest certified nurse midwife groups, certified lactation consultants and birth options such as water births for low-risk deliveries.

The Breast Health Center has imaging including 2D and 3D digital mammography, diagnostic testing, surgery, chemotherapy, radiation and hormone therapy and support services from nutritionists, psychotherapists and social workers.

The Cancer Care Center offers treatment and services including genetic counseling, surgery, chemotherapy, radiation, neurological oncology, palliative care and complementary care.

Capitol View Transitional Care Center offers short-term rehabilitation after hospitalization and is located in Regions Hospital.

HealthPartners Center for Memory and Aging provides treatment for memory loss, cognitive disorders and Alzheimer's disease. It is also recognized internationally for research and clinical studies about the treatment and prevention of Alzheimer's disease.

The Digestive Care Center provides inpatient and urgent care diagnoses and treatment for gastrointestinal and pulmonary system disorders. Other care for digestive disorders is provided at HealthPartners Specialty Center.

The Heart Center is recognized as one of the nation's top-performing hospitals for heart care by The Joint Commission. Services include cardiac imaging, rehabilitation, research, surgery and women's heart health care.

Neurosurgery treats spinal cord injuries, brain tumors, traumatic brain injuries, aneurysms and other neurological conditions. Regions has one of the largest programs in the upper Midwest for deep brain stimulation (DBS) for Parkinson's disease and epilepsy.

Orthopaedics provides surgical and non-surgical treatment with specialized programs for sports injuries, joint replacement and treatment of fractures.

Palliative Care relieves pain, symptoms and stress at all stages of a serious or advanced illness. Regions was among the first in the nation to receive Advance Certification for Palliative Care from The Joint Commission.

Radiation Therapy offers comprehensive consultation and radiation treatments for inpatients and outpatients.

The Rehabilitation Institute provides inpatient and outpatient services for patients with physical, cognitive or emotional difficulties resulting from a major illness or injury.

The Spine Center provides non-surgical and surgical treatments for neck and back pain and spinal disease or injury.
