

# Drug Cost Calculator

## Pharmacy costs made simple

HealthPartners makes it easy for you to compare the cost of your prescription at pharmacies nationwide. Using the Drug Cost Calculator, you can quickly find the best price for your medications. You can see prices for both brand-name and generic medications at different retail pharmacies – plus, you'll even see how much you can save by having your prescriptions delivered to your mailbox!

### Easy access to prescription cost information

The online Drug Cost Calculator is quick and easy to use. You can use this tool to:

- Compare the cost of your medication at different retail pharmacies
- See how much you'd pay at HealthPartners Mail Order Pharmacy and the prices for three-month supplies at retail (Choice90)
- See how much both you and your health plan pay
- Find if there's a generic version of your medication and the cost of that generic
- View most commonly dispensed similar medications
- Discover other ways to save on your prescription

Your medication cost information is based on your pharmacy benefits. Knowing where to go for the best deal will help you save on your prescription costs.

### It pays to compare

The cost of your prescription medication depends on the pharmacy you visit. Using the Drug Cost Calculator, you'll see your coinsurance or copay amount and the amount paid by your health plan. This information makes it easy for you to make the choice that's right for you—and your budget.
