HealthPartners Families' and Children's Medicaid plans

The HealthPartners Minnesota Health Care Programs (MHCP) care plans provide care to recipients of Prepaid Medical Assistance Programs (PMAP), MinnesotaCare Programs (MNCare), and Minnesota Senior Care Plus (MSC+). HealthPartners Care members do not have a Primary Care Clinic designation with the exception of a restricted recipient. No referrals are needed for HealthPartners Care network healthcare providers, specialists and hospitals.

MHCP medical coverage policies apply and are found on the [Provider Portal](#).

MHCP plans service area

MHCP service area varies by product. See specific service area under each product.

Prepaid Medical Assistance Programs (PMAP)

The benefits are based on the Medical Assistance (MA) benefit packages. PMAP covers health care for the following people who have Medical Assistance:

- Children under the age of 21
- Parents and caretakers of a dependent child
- Pregnant women
- Certain low-income adults without a dependent child

HealthPartners service area for PMAP members includes: Anoka, Benton, Carver, Chisago, Dakota, Hennepin, Ramsey, Scott, Stearns, Washington, and Wright counties.

MinnesotaCare (MNCare)

MinnesotaCare is a managed care plan for recipients who do not have access to affordable health care coverage. Some members may be required to pay a premium to the State.

HealthPartners service area for MNCare members includes: Anoka, Benton, Carver, Chisago, Dakota, Hennepin, Ramsey, Scott, Stearns, Washington, and Wright counties.

Minnesota Senior Care Plus (MSC+)

MSC+ is for members age 65 or older who qualify for Medical Assistance. They may also have fee-for-service Medicare. The health care benefits are similar to PMAP coverage with the addition of Elderly Waiver Services and Nursing Facility services for those who are assessed as eligible for those services.

Some MSC+ members have a care coordinator. The care coordinator will perform an initial assessment of the member within 30 days of enrollment and annually thereafter. Following the assessment, the care coordinator will develop a personalized care plan. The care coordinator will support the member through different settings of care and update the member's care plan to accommodate the member's changing needs.

HealthPartners service area for MSC+ members includes: Anoka, Benton, Carver, Chisago, Dakota, Hennepin, Ramsey, Scott, Sherburne, Stearns, Washington and Wright counties.

HealthPartners Inspire (SNBC) plan

The HealthPartners Inspire (SNBC) Plan covers people with disabilities who are ages 18 through 64 and have Medical Assistance. Inspire members do not have a Primary Care Clinic designation with the exception of a restricted recipient. No referrals are needed for HealthPartners Care network healthcare providers, specialists and hospitals. Refer to Member Services for questions about benefits.

Each member has a care coordinator. The care coordinator will perform an initial assessment of the member within 30 days of enrollment and annually thereafter. The care coordinator will work with the member to develop a personalized care plan based on the member's needs. The care coordinator will support the member through different settings of care and update the member's care plan to accommodate the member's changing needs.

HealthPartners Inspire (SNBC) service area

HealthPartners Inspire service area includes: Anoka, Benton, Carver, Chisago, Dakota, Hennepin, Ramsey, Scott, Sherburne, Stearns, Washington, and Wright counties.

HealthPartners Minnesota Senior Health Options (MSHO) plan

HealthPartners MSHO Plan covers health care services for people who are ages 65 and over, have Medical Assistance, and both Medicare Parts A and B. MSHO integrates primary, acute, and long-term care and Medicaid and Medicare services, including Part D, through managed care for seniors. HealthPartners MSHO coordinates Elderly Waiver services for members who meet eligibility criteria set forth by the Department of Human Services. The MSHO Plan is Primary Care Clinic-based and not all contracted providers will be in-network for these members. Referrals to specialty providers may be required.

MSHO benefits include all Medicare and Medicaid services including Elderly Waiver services as needed and nursing home care. Elderly Waiver services include assisted living, adult day care, home modifications, chore services, home delivered meals and others.

One of the most attractive benefits of the MSHO plan is each member has a care coordinator. The care coordinator will perform an initial assessment of the member within 30 days of enrollment and annually thereafter. Following the assessment, the care coordinator will develop a personalized care plan. The care coordinator will support the member through different settings of care and update the member's care plan to accommodate the member's changing needs.

HealthPartners MSHO plan service area

HealthPartners MSHO plan's service area includes the following counties: Anoka, Benton, Carver, Chisago, Dakota, Hennepin, Ramsey, Scott, Sherburne, Stearns, Washington and Wright.

Medicare prescription drug coverage (Part D drug coverage)

HealthPartners MSHO Plan combines Medicare, Medicaid and Part D prescription drug coverage all in one plan. New for 2023, all HealthPartners MSHO members have a \$0 copay for all covered prescription drugs. HealthPartners is the only MSHO plan with \$0 drug costs.

In addition, HealthPartners MSHO Plan covers some other drug classes and over the counter medications that are not covered by Medicare. HealthPartners MSHO Plan benefits, list of covered drugs, pharmacies, and copays may change throughout the year and on January 1 of each year.

MSHO supplemental benefits 2024

The MSHO plan provides comprehensive coverage for all seniors covered by Medicare and Medical Assistance. HealthPartners also offers supplemental benefits to MSHO members. These benefits may change each year. Please read about the supplemental benefits [HERE](#) for the full descriptions.

Sample insurance cards

Insurance card identifies State Public Program member

Member card:

- The member's identification number, name and PMI number appear at the top of the card.
- Under the member name is "Care Type" which shows the member's product. For MSHO, it reads "HealthPartners – MSHO (HMO SNP)."
- Copays appear in the middle section of the card.
- For MSHO, the member's clinic number and clinic name appear next to "Medical" and "Dental" on the bottom of the card.
- Effective July 15, 2021 the care types changed for PMAP, MinnesotaCare and MSC+ ID cards. The care type HealthPartners Care or HPCare was previously used by all three products. The new care types more closely reflect the name of each product. You may see both care types in circulation while we reissue new cards. The table below shows the care types before and after July 15th.

Product	Before July 15th, 2021	Starting July 15, 2021

Member Eligibility

Please verify member eligibility EVERY month!

Electronic claim transactions for Minnesota Health Care Programs (MHCP) are accepted through MN-ITS *Interactive* or MN-ITS *Batch*. Claims sent through ITS or NSF will no longer be accepted.

Verify recipient eligibility through MN-ITS or by calling EVS at **(651) 431-4399** or **1-800-657-3613**. Learn more about MN-ITS and register online at **Minnesota Restricted Recipient Program (MRRP)**.

Minnesota Restricted Recipient Program (MRRP) designated provider information will be listed on the MN-ITS website. The eligibility portal will indicate the member is restricted.

Placement in the program will stay with the member if they change health plans. Placement in the program will also stay with members if they change to MHCP fee-for-service. Members will not lose eligibility for MHCP because of placement in the program.

Restricted recipients may not pay out-of-pocket to see a non-designated provider who is the same provider type as one of their designated providers.

Pharmacy / Formulary

The HealthPartners formulary should be used when writing prescriptions. Many over-the-counter drugs are also covered as long as they are prescribed by a plan physician and obtained at a plan pharmacy.

Preferred Drug List (PDL)

A preferred drug list was launched and is maintained by DHS for members on HealthPartners Medicaid plans. The drug list includes prior authorization requirements.

HealthPartners List of Covered Drugs (LOCD)

For the most up-to-date drug list (includes any rules or restrictions that may apply to a specific drug, such as prior authorization requirements or a limit on the amount a member is able to receive), HealthPartners Care, which includes Prepaid Medical Assistance PMAP and MinnesotaCare MNCare, HealthPartners Inspire (SNBC) and MSHO drug list can be accessed on the HealthPartners website.

Noncovered services

A provider may bill HealthPartners Medicaid plan members for non-covered services only. Refer to the administrative policy, AP015 [Provider Billing and Collection of Member Cost-Sharing for Medicaid Products](#). Refer to the provider portal, [Administrative Policies page](#).

Public programs products may require referrals for claims payment

HealthPartners MSHO Plan is primary care clinic-based and may require referrals. Providers are encouraged to check eligibility and call Member Services to verify if referrals are required. Eligibility may be checked on the Provider Portal at healthpartners.com/provider. After logging in, select “Eligibility” from the drop-down menu under the heading Applications.

The preferred method for referral submission is online through the Provider Portal using the Referral Maintenance Application at healthpartners.com/provider. After logging in, select Referral Inquiry or Referral Maintenance to create, update, view and retrieve/answer Referral Authorization Inquiries (RAIs). A referral can also be made by completing a [Provider Recommendation/Referrals](#) by following the submission instructions on the form.

An RAI is generated when a member assigned to a primary care clinic product receives services outside of the primary care clinic’s specialty referral network. The member may or may not have been directed by the primary care clinic care system; however, it is important for primary care providers to respond to these RAIs indicating if the care was referred by the primary care clinic care system or not. The RAI response is needed so the outstanding claim can be processed appropriately. RAI notifications are sent to primary care providers via the Provider Portal. There is no indicator on the portal that an RAI has been sent when you log on, so it is important to check your work queues regularly to view and respond to RAIs.

Please note: The current policies and procedures remain in effect and in place regarding prior authorization or Recommendation For Further Services for the HealthPartners Transplant Centers of Excellence, HealthPartners Direct Access Mental Health Network, HealthPartners Referral Mental Health Network, the WLS (Weight Loss Surgery), Low Back Pain or other designated networks.

Members can learn about the providers in these plan-wide networks in several ways:

- Visit healthpartners.com to view a list of providers.
- Per instructions in the member enrollment packet, they can request a provider directory be mailed to them.
- Call Member Services to ask about a particular provider.

Public programs products may require prior authorization for certain services

HealthPartners may require prior authorization for certain services or items. For each healthcare service or item that requires a prior authorization, there are documented review criteria in place that have been developed or adopted by HealthPartners and reviewed by physicians from appropriate specialty areas. All review criteria are available to the provider and member upon request free of charge. Emergency services do not require prior authorization.

Coverage criteria requirements may be checked on the Provider Portal at healthpartners.com/provider. Click on the Admin Tools heading and then select **Coverage criteria** from the list of options in the menu or click [HERE](#).
