Specialty Pharmacy Network List

Specialty medicines are usually prescribed by doctors who treat chronic and complex disease. These medications usually require a higher degree of management, have a high price and are not generally stocked at retail pharmacies. Professionally-administered drugs are generally billed on the medical benefit. Self-administered drugs are generally billed on the pharmacy benefit. Many specialty drugs require approval prior to use.

All medications listed on this drug list must be filled at Unity Point at Home Pharmacy. Please ask your provider to send prescriptions for specialty drugs to your pharmacy.

- UnityPoint at Home Pharmacy: 515-557-3100 or 1-888-584-6311

Note: In limited instances CVS Caremark Specialty will have to supply a specialty medication due to manufacturer limitations restricting the sale of medications to pharmacies. This list applies to the pharmacy benefit, can change and doesn't apply to Medicare Part D benefit plans.
