HealthPartners

Site of Care Request for Information Form

Member Name: _____ Member ID: _____ Date of Birth: _____

HealthPartners requires the use of home-infusion or office-based infusion settings for this medical injectable. It is not considered medically necessary for a member to receive this drug at a high-cost setting (i.e., outpatient hospital setting), unless exception criteria are met which will be determined by the 3 questions below. See the drug's medical policy posted online for full exception criteria.

*Is it medically necessary for this patient to receive infusion services at your outpatient hospital setting?

Yes ☐ No

If no (not medically necessary), and the drug meets all other medical necessity criteria, then HealthPartners will still allow a 3 month approval at your outpatient hospital setting to allow time for patients to transition to an alternative setting. HealthPartners will contact the patient to facilitate selecting a new preferred alternative setting.

***Would you agree to change your request to a 3 month duration approval?**

Yes ☐ No

If yes (medically necessary), answer the following three questions. Please provide supporting rationale for any "yes" responses in the form of a short statement:

1. Has the patient experienced a severe or life-threatening reaction with previous infusions of the same or similar products?

2. Does the patient have a medical condition that renders him/her unstable, exceptionally complex, immunocompromised or otherwise high-risk such that continued oversight during infusions in the current facility is required?

3. Does the patient have a high-risk home environment, which would not allow the use of home-infusion services? (This may include unstable housing or housing deemed unsanitary or unfit for infusion services documented by the physician, social worker, or infusion provider).

Pharmacy Administration - Prior Authorization / Exception Form

For questions, call **952-883-5813** or **800-492-7259**.
Incomplete or illegible submissions will be returned and may delay review.
