Section I – Introduction

This directory provides a list of HealthPartners® Freedom network providers. To get detailed information about your health care coverage, please see your Evidence of Coverage.

You generally must receive your care from a network provider for our plan to cover the services. However, you can choose to use non-plan providers. “Non-plan providers” aren’t part of the Freedom network. If you use non-plan providers for care that isn’t emergency care, including maintenance and hospital care after you’re stable (known as post-stabilization care), urgently needed care, or haven’t started your Extended Absence benefit, you’ll have to pay the Original Medicare Plan out-of-pocket costs (such as copayment, coinsurance or deductible). Upon activation, your Extended Absence benefit provides the same level of coverage when you’re outside the service area and within the United States.

The “network providers” listed in this directory have agreed to provide you with your health care and dental services. You may go to any of our network providers listed in this directory; however, some services may require a referral. If you have been going to one network provider, you are not required to continue to go to that same provider. In some cases, you may get covered services from out-of-network providers.

We cover certain health care services that you get from out-of-network providers. These include care for

- medical emergency, including hospital care after you’re stable
- maintenance care
- urgently needed care when you’re temporarily out of the service area
- care that has been approved in advance by HealthPartners
- any services which were determined to be covered through an appeals process, and as covered under the Extended Absence benefit.

If a out-of-network provider asks you to pay for covered services, please contact Member Services at the numbers on the inside front cover. To submit claims, you should mail them to:

HealthPartners Claims Dept.
8170 33rd Ave. S.
P.O. Box 1289
Minneapolis, MN 55440-1289

You should never pay any out-of-network provider more than what the plan is allowed by Medicare. The provider has a right to get his/her fees, but doesn’t have a right to get them from you. If an out-of-network provider sends you a bill that you think we should pay, please contact Member Services. Generally, it is best to ask an out-of-network provider to bill Original Medicare first, and then to bill us for the remaining amount. We may require the out-of-network provider to bill Original Medicare. We will then pay any applicable Medicare coinsurance and deductibles minus your copayments on your behalf.

Emergency care can always be obtained in or out of the service area from the nearest available provider. When in the service area you must use plan providers for urgent care. When out of the service area urgent care may be obtained from the first available provider. In addition, when out of the service area you can obtain dialysis treatment from any qualified dialysis provider.

Urgent/after-hours care

HealthPartners contracts with 108 facilities of this type.

Providers are organized first by state, city, then alphabetically by facility name.

What is the CareLineSM service?

After regular clinic hours, call our CareLine service to talk directly with skilled nurses who are specially trained to help you over the phone. A CareLine nurse might suggest home care, a visit to your clinic the next day, a trip to an urgent care clinic, or a visit to an emergency room. Whatever your health care needs or questions, CareLine nurses will give you guidance based on the condition you describe and, if necessary, direct you to the facility that is most appropriate for your situation. They'll even contact the urgent care center so they're prepared to meet your needs when you arrive.

What urgent care centers are available?

The urgent care centers listed on the following pages are available to all HealthPartners members — just walk in. In addition, some clinics offer urgent care on site (see clinic listings). The urgent care centers affiliated with your regular clinic will most likely be able to get access to your medical records and more easily coordinate any needed follow up care.
