The Summary of Benefits and Coverage (SBC) document will help you choose a health plan. The SBC shows you how you and the plan would share the cost for covered health care services. NOTE: Information about the cost of this plan (called the premium) will be provided separately. This is only a summary. For more information about your coverage, or to get a copy of the complete terms of coverage, call 1-800-883-2177 or visit us at www.healthpartners.com. For general definitions of common terms, such as allowed amount, balance billing, coinsurance, copayment, deductible, provider, or other underlined terms see the Glossary. You can view the Glossary at www.dol.gov/ebsa/pdf/SBCUniformGlossary.pdf or call 1-800-883-2177 to request a copy.

| What is the overall deductible?                         | In-network: $3,500 Individual/$7,000 Family contract  
Out-of-network: $10,000 Individual/$20,000 Family contract | Generally, you must pay all of the costs from providers up to the deductible amount before this plan begins to pay. If you have other family members on the policy, the overall family deductible must be met before the plan begins to pay. |
| Are there services covered before you meet your deductible? | Yes. Coinsurance marked with * in Common Medical Events and benefits with no charge are not subject to deductible | This plan covers some items and services even if you haven’t yet met the deductible amount. But a copayment or coinsurance may apply. For example, this plan covers certain preventive services without cost-sharing and before you meet your deductible. See a list of covered preventive services at [https://www.healthcare.gov/coverage/preventive-care-benefits/](https://www.healthcare.gov/coverage/preventive-care-benefits/). |
| Are there other deductibles for specific services?      | No.                                                                                                                                                                                                     | You don’t have to meet deductibles for specific services.                                                                                                                                                           |
| What is the out-of-pocket limit for this plan?          | In-network medical/pharmacy: $3,500 Individual/$7,000 Family contract  
Out-of-network medical/pharmacy: $30,000 Individual/$60,000 Family contract | The out-of-pocket limit is the most you could pay in a year for covered services. If you have other family members in this plan, the overall family out-of-pocket limit must be met. |
| What is not included in the out-of-pocket limit?         | Premium, balance-billed charges (unless balanced billing is prohibited), and health care this plan doesn’t cover.                                                                                         | Even though you pay these expenses, they don’t count toward the out-of-pocket limit.                                                                                                                                     |
| Will you pay less if you use a network provider?        | Yes. See www.healthpartners.com/sgachieve or call 1-800-883-2177 for a list of in-network providers.                                                                                                  | This plan uses a provider network. You will pay less if you use a provider in the plan’s network. You will pay the most if you use an out-of-network provider, and you might receive a bill from a provider for the difference between the provider’s charge and what your plan pays (balance billing). Be aware your network provider might use an out-of-network provider for some services (such as lab work). Check with your provider before you get services. |

About these Coverage Examples:

This is not a cost estimator. Treatments shown are just examples of how this plan might cover medical care. Your actual costs will be different depending on the actual care you receive, the prices your providers charge, and many other factors. Focus on the cost sharing amounts (deductibles, copayments and coinsurance) and excluded services under the plan. Use this information to compare the portion of costs you might pay under different health plans. Please note these coverage examples are based on self-only coverage.
