

Specialty Pharmacy Network List

Specialty, Growth Hormone & Infertility drugs

Specialty medicines are usually prescribed by doctors who treat chronic and complex disease. These medications usually require a higher degree of management, have a high price and are not generally stocked at retail pharmacies. Professionally-administered drugs are typically billed on the medical benefit. Self-administered drugs are generally billed on the pharmacy benefit. Many specialty drugs require approval prior to use.

You must choose from the pharmacies below:

<p>Infertility</p>	<p>Alliance RX/Walgreens Prime Specialty Pharmacy (mail order) Phone: 1-800-424-9002 Fax: 1-800-874-9179</p> <p>Walgreens Pharmacy (pick up) 6975 York Avenue South, Edina MN 55435 Phone: 612-377-3308 Fax: 612-337-5670 <i>Clomid isn't restricted to the specialty network. To identify a specialty drug visit our drug search tool at <https://www.healthpartners.com/hp/pharmacy/druglist/index.html>.

This information applies to the HealthPartners Unity Point plans in Iowa, with the exception of the Unity Point Health employer plan.

Employer groups may have unique specialty network requirements. This list doesn't apply to those Employer groups.

Coverage for Growth Hormone products is typically under a separate benefit for "Growth Deficiency Therapy". Growth hormone products require prior approval.

To learn more about your Specialty, Growth Hormone, or Infertility network or benefits see your Summary of Benefits and Coverage (SBC) or call the member services number on the back of your card.

In limited instances CVS Caremark Specialty will have to supply a specialty medication due to manufacturer limitations restricting the sale of medications to pharmacies. This list applies to the pharmacy benefit, can change and doesn't apply to Medicare Part D benefit plans.

Please see [healthpartners.com](https://www.healthpartners.com) for full coverage criteria.
