

To our trusted and valued HealthPartners Dental Network:

These are unprecedented times that we are facing and it is my hope that you are all doing well and staying safe. As health professionals, we have a responsibility to continue to connect with our patients and provide them with triage advice and, when needed, emergency care.

We feel that when we partner, we always come up with a better product. To that end, we would like to share with you a document that we have created to assist our internal dentists to provide triage support to our patients - - we offer it to you and hope it will assist you as well during these challenging times.

We value our relationship with each of you and sincerely hope to get through this crisis soon. We will, I am certain, and wish to thank you in advance for your excellent care of our members.

Be well!

David S. Gesko, DDS, FACD
Dental Director & Senior Vice President
