

ACA Preventive Drug List

Commercial Plans

HealthPartners offers certain preventive service benefits at no cost to you. This means you don't have to pay a copay or coinsurance. These medications are part of the Affordable Care Act (ACA).

The Patient Protection and Affordable Care Act (ACA) establishes coverage for essential health benefits without charging a copayment, coinsurance, or deductible. Essential health benefits include medications that are outlined by the United States Preventive Services Task Force (USPSTF) recommendations with an A or B rating, recommendations from the Advisory Committee on Immunization Practices (ACIP), and guidelines supported by the Health Resources and Services Administration (HRSA) for pediatrics and women.

Please note: If there is a difference between this general information and your plan documents, your plan documents will be used to determine your coverage. Please see your plan documents for your specific coverage information.

How to use this list

- The following list explains which medications are covered as ACA Preventive medications
- Brand medicines are in ALL CAPS (e.g., DAILRESP ORAL TABLET)
- Generic medicines are in lower italics (e.g., furosemide oral tablet)

Other important information

- Coverage rules may apply and may not be shown here.
 - Some medications have rules, such as prior authorization, that must be met before the medication is covered.
 - Please see the information below for more details.
 - Please check the [Pharmacy Drug List \(Formulary\)](#) for complete coverage rules.
- A prescription is required for all medications (including OTC drugs) for coverage as an ACA preventive medication, and medications must be filled at an in-network pharmacy.
- This list will be reviewed at least annually and is subject to change at any time.

PA - Prior authorization ST – Step therapy QL – Quantity limit AE – Age Edit

Last Updated: 10/1/2021

***Please note:** Medications in these categories are covered as ACA Preventive medications at zero copay for eligible members, in accordance with essential health benefit recommendations:

Category	Limits
Breast Cancer Medications	Coverage is limited to women at increased risk of breast cancer.
Fluoride oral	Coverage is limited to children up to age 6.
HIV Prevention	Coverage is limited to persons at high risk of HIV acquisition.
Statins	Coverage is limited to adults without history of cardiovascular disease, within recommended age range and risk score.
