### **Benefits Chart**

**Effective Date:** The later of the effective date, or most recent anniversary date, of the Group Policy and your effective date of coverage under the Group Policy.

**HealthPartners Insurance Company agrees to cover the services described below. This Benefits Chart describes the level of payment that applies for each of the covered services. To be covered under this section, the medical or dental services or items described below must be medically or dentally necessary.**

**Coverage for eligible services is subject to the exclusions, limitations, and other conditions of this Benefits Chart and the Group Certificate.**

**Covered services and supplies are based on established medical policies, which are subject to periodic review and modification by the medical or dental directors. Covered prescription drugs are based on requirements established by the HealthPartners Pharmacy and Therapeutics Committee, and are subject to periodic review and modification. These medical policies (medical coverage criteria) and formulary requirements are available by calling Member Services, or logging on to your “myHealthPartners” account at healthpartners.com.**

**Benefits are underwritten by HealthPartners Insurance Company.**

**Coverage may vary depending on whether you select a network provider or a non-network provider.**

**Coverage may also vary depending on whether you are receiving services from a network primary care provider, or from a network specialty care provider.**

**The amount that we pay for covered services is listed below. You are responsible for the specified dollar amount and/or percentage of charges that we do not pay.**

**Non-Network Providers: Except for air ambulance, emergency care, and post-stabilization care as defined under the federal No Surprises Act and its implementing regulations, when you use Non-Network providers, benefits are substantially reduced and you will likely incur significantly higher out-of-pocket expenses. A Non-Network provider does not usually have an agreement with HealthPartners to provide services at a discounted fee. In addition, most Non-Network Benefits are restricted to the usual and customary amount as described under the definition of “Charge”. The usual and customary amount can be significantly lower than a Non-Network provider’s billed charges. If the Non-Network provider’s billed charges are over the usual and customary amount, you pay the difference, in addition to any required deductible, copayment and/or coinsurance, and these charges do not apply to the out-of-pocket limit. Under the No Surprises Act, health care providers and facilities are required to provide patients with a plain-language consumer notice explaining that patient consent is required to receive non-emergency care on a non-network basis before that provider can bill at the higher non-network rate.**

**This policy is subject to the federal No Surprises Act and its implementing regulations, and provides protection for insureds against surprise billing for air ambulance, emergency care, and post-stabilization care received from Non-Network Providers.**

**These definitions apply to this Benefits Chart. They also apply to the Group Certificate.**

- Biosimilar Drug:** A prescription drug, approved by the Food and Drug Administration (FDA), that the FDA has determined is biosimilar to and interchangeable with a biological brand name drug. Biosimilar drugs are not considered generic drugs and are not covered under the generic drug benefit.
- Brand Name Drug:** A prescription drug, approved by the Food and Drug Administration (FDA), that is manufactured, sold, or licensed for sale under a trademark by the pharmaceutical company that originally researched and developed the drug. Brand name drugs have the same active-ingredient formula as the generic version of the drug. However, generic drugs are manufactured and sold by other drug manufacturers and are generally not available until after the patent on the brand name drug has expired. A few brand name drugs may be covered at the generic drug benefit level if this is indicated on the formulary.
- Calendar Year:** This is the 12-month period beginning 12:01 A.M. Central Time, on January 1, and ending 12:01 A.M. Central Time of the next following December 31.
- Charge:** For covered services delivered by participating network providers, is the provider's discounted charge for a given medical/surgical service, procedure or item.
- For covered services delivered by Non-Network providers, a contracted rate may apply if such arrangement is available to HealthPartners.
- For the Usual and Customary Charge for covered services delivered by non-network providers, our payment is calculated using one of the following options to be determined at HealthPartners' discretion: 1) a percentage of the Medicare fee schedule; 2) a comparable schedule if the service is not on the Medicare fee schedule; or 3) a commercially reasonable rate for such service.
- The Usual and Customary Charge is the maximum amount allowed that we consider in the calculation of the payment of charges incurred for certain covered services. You must pay for any charges above the usual and customary charge, and they do not apply to the out-of-pocket limit.
- A charge is incurred for covered ambulatory medical and surgical services, on the date the service or item is provided. A charge is incurred for covered inpatient services, on the date of admission to a hospital. To be covered, a charge must be incurred on or after your effective date and on or before the termination date.
- Copayment/Coinsurance:** The specified dollar amount, or percentage, of charges incurred for covered services, which we do not pay, but which you must pay, each time you receive certain medical services, procedures or items. Our payment for those covered services or items begins after the copayment or coinsurance is satisfied. Covered services or items requiring a copayment or coinsurance are specified in this Benefits Chart.
- For services provided by a network provider:
- An amount which is listed as a flat dollar copayment is applied to a network provider's discounted charges for a given service. However, if the network provider's discounted charge for a service or item is less than the flat dollar copayment, you will pay the network provider's discounted charge. An amount which is listed as a percentage of charges or coinsurance is based on the network provider's discounted charges, calculated at the time the claim is processed, which may include an agreed upon fee schedule rate for case rate or withhold arrangements.
- For services provided by a non-network provider:
- Any copayment or coinsurance is applied to the lesser of the provider's charges or the usual and customary charge for a service.
- A copayment or coinsurance is due at the time a service is provided, or when billed by the provider. The copayment or coinsurance applicable for a scheduled visit with a network provider will be collected for each visit, late cancellation and failed appointment.

<b>Deductible:</b>	<p>The specified dollar amount of charges incurred for covered services, which we do not pay, but an insured or a family has to pay first in a calendar year. Our payment for those services or items begins after the deductible is satisfied. For network providers, the amount of the charges that apply to the deductible are based on the network provider's discounted charges, calculated at the time the claim is processed, which may include an agreed upon fee schedule rate for case rate or withhold arrangements. For non-network providers, the amount of charges that apply to the deductible are the lesser of the provider's charges or the usual and customary charge for a service.</p> <p>Any amounts paid or reimbursed by a third party, including but not limited to: point of service rebates, manufacturer coupons, manufacturer debit cards or other forms of direct reimbursement to an insured for a product or service, will not apply toward the deductible, to the extent permitted under state and federal law.</p> <p>Your plan has an embedded deductible. This means once an insured meets the individual deductible, the plan begins paying benefits for that person. If two or more members of the family meet the family deductible, the plan begins paying benefits for all members of the family, regardless of whether each insured has met the individual deductible. However, an insured may not contribute more than the individual deductible toward the family deductible.</p> <p>All services are subject to the deductible unless otherwise indicated below in this Benefits Chart.</p>
<b>Formulary:</b>	<p>This is a current list, which may be revised from time to time, of prescription drugs, medications, equipment and supplies covered by us as indicated in this Benefits Chart which are covered at the highest benefit level. Some drugs on the Formulary may require prior authorization to be covered as formulary drugs. The formulary, and information on drugs that require prior authorization, are available by calling Member Services, or logging on to your "myHealthPartners" account at <a href="http://healthpartners.com">healthpartners.com</a>.</p>
<b>Generic Drug:</b>	<p>A prescription drug, approved by the Food and Drug Administration (FDA), that the FDA has determined is comparable to a brand name drug product in dosage form, strength, route of administration, quality, intended use and documented bioequivalence. Generally, generic drugs cost less than brand name drugs. Some brand name drugs may be covered at the generic drug benefit level if this is indicated on the formulary.</p>
<b>Lifetime Maximum Benefit:</b>	<p>The specified coverage limit actually paid by us for services and/or charges incurred by you for bariatric surgery. Payment of benefits under the Certificate ceases when that lifetime maximum benefit is reached. You have to pay for any subsequent charges.</p>
<b>Non-Formulary Drug:</b>	<p>This is a prescription drug, approved by the Food and Drug Administration (FDA), that is not on the formulary, is medically necessary and is not investigative or otherwise excluded under the Certificate.</p>
<b>Out-of-Pocket Expenses:</b>	<p>You pay the specified copayments/coinsurance and deductibles applicable for particular services, subject to the out-of-pocket limit described below. These amounts are in addition to the monthly premium payments.</p>
<b>Out-of-Pocket Limit:</b>	<p>You pay the copayments/coinsurance and deductibles for covered services, to the individual or family out-of-pocket limit. Thereafter we cover 100% of charges incurred for all other covered services, for the rest of the calendar year. You pay amounts greater than the out-of-pocket limit if you exceed any Lifetime Maximum Benefit, or visit or day limits.</p> <p>Non-Network Benefits above the usual and customary charge (see definition of charge above) do not apply to the out-of-pocket limit.</p> <p>Non-Network Benefits for transplant surgery and bariatric surgery do not apply to the out-of-pocket limit.</p> <p>Any amounts paid or reimbursed by a third party, including but not limited to: point of service rebates, manufacturer coupons, manufacturer debit cards or other forms of direct reimbursement to an insured for a product or service, will not apply as an out of pocket expense, to the extent permitted under state and federal law.</p>

You are responsible to keep track of the out-of-pocket expenses. Contact our Member Services Department for assistance in determining the amount paid by the enrollee for specific eligible services received. Claims for reimbursement under the out-of-pocket limit provisions are subject to the same time limits and provisions described under the “Claims Provisions” section of the Certificate.

## PREVENTIVE SERVICES

### Applicable Definitions:

**Routine Preventive Services** are routine healthcare services that include screenings, check-ups and counseling to prevent illness, disease or other health problems before symptoms occur.

**Diagnostic Services** are services to help a provider understand your symptoms, diagnose illness and decide what treatment may be needed. They may be the same services that are listed as preventive services, but they are being used as diagnostic services. Your provider will determine if these services are preventive or diagnostic. These services are not preventive if received as part of a visit to diagnose, manage or maintain an acute or chronic medical condition, illness or injury. When that occurs, unless indicated below, standard deductibles, copayments or coinsurance apply.

### Covered Services:

We cover preventive services that meet any of the requirements under the Affordable Care Act (ACA) shown in the bulleted items below. These preventive services are covered at 100% under the network benefits with no deductible, copayments or coinsurance. If a preventive service is not required by the ACA and it is covered at a lower benefit level or if a group qualifies for an exemption or accommodation for certain benefits under the ACA, it will be specified below. Preventive benefits mandated under the ACA are subject to periodic review and modification. Changes would be effective in accordance with the federal rules. Preventive services mandated by the ACA include:

- Evidence-based items or services that have in effect a rating of A or B in the current recommendations of the United States Preventive Services Task Force with respect to the individual;
- Immunizations for routine use in children, adolescents and adults that have in effect a recommendation from the Advisory Committee on Immunization Practices of the Centers for Disease Control and Prevention with respect to the individual;
- With respect to infants, children and adolescents, evidence-informed preventive care and screenings provided for in comprehensive guidelines supported by the Health Resources and Services Administration; and
- With respect to women, preventive care and screenings provided for in comprehensive guidelines supported by the Health Resources and Services Administration.

Covered services are based on established medical policies, which are subject to periodic review and modification by the medical or dental directors. These medical policies (medical coverage criteria) are available by calling Member Services, or logging on to your “myHealthPartners” account at [healthpartners.com](http://healthpartners.com).

ACA and state mandated preventive services are covered as follows:

**Routine health exams and periodic health assessments.** A physician or health care provider will counsel you as to how often health assessments are needed based on age, sex and health status. This includes screening and counseling for tobacco use and all FDA approved tobacco cessation medications including over-the-counter drugs (as shown in the Prescription Drug Services section).
