Comprehensive Care Advocacy Work Aid

Title:	In Lieu of Services		
Program(s):	MSHO, MSC+	**Effective Date:**	1/1/2024
Frequency:	Ongoing	**System(s):**	CarePartner
Process Owner:	Care Coordinators	**Back-up Owner:**	Supervisors
Revised by:	Whitney Penny	**Last Revision:**	3/1/2024
Work Aid Location:	Sharepoint		
Preparation/Materials:	MSHO Supplemental Benefit list		

Purpose: To identify when a Care Coordinator (CC) is implementing an In Lieu of Service and to document this service into the Support and Intervention activity housed within CarePartner. This work supports Government Programs with creating and submitting an accurate bid to DHS.

When to use: The CC is implementing an In Lieu of Service when the purpose is to meet the need(s) of a member with a replacement service that would not normally be covered. The most common example is a waivered DME item being provided for a non-waivered member.

If a member has needs that make them eligible for the waiver, they should be opened to the waiver. ILOS give members who would otherwise not qualify access to services they need and should not be used to prevent a member from accessing waiver services if they should be getting them.

If member needs multiple services or supports and not open to a waiver, consult with supervisor whether to do in lieu of or open to a waiver.

2024 Covered In Lieu of Service(s)

ICD-10, CPT, or HCPCS Code	Code Description

What are NOT In Lieu of Services?

- When you plan on opening the member to EW and the Financial Worker removes U code and you are able to arrange EW services but member is not open to the waiver
- When service is covered under MA: Pill box, Commode etc.
- When service is a MSHO Supplemental Benefit service (use new Category type called *MSHO Supplement Benefit*. Payer should be *HP Benefit*)
- Consideration of Exception to Benefit is needed. Consult with your supervisor
