

Your pharmacy benefits

HealthPartners leads the way with pharmacy services to help you manage your prescriptions. With more than 60,000 pharmacy locations nationally and medications available through the mail, we make it easy for you to take care of your needs. Using HealthPartners online tools you can find the latest cost-saving options, fill your prescriptions, search the Preferred Drug List (formulary) and more.

Great ways you can save on your prescriptions!

1 Review the Preferred Drug List

- The Preferred Drug List is a list of medications that are covered by your pharmacy benefits. You can search for a specific medication, browse alphabetically or by category on healthpartners.com/formulary.
- Once you find your medication, you can log on to see your copay or coinsurance (the amount you pay).

2 Choose generics

- When you're searching the Preferred Drug List, check to see if your medication is a generic. If it's not, check to see if there is a generic in the same category that might work for you. Generic medications are identical to brand-name medications — they work the same as brand names and save about \$100 per fill.
- You will almost always save on the amount you pay if you use a generic medication. To see if there is a generic medication for you, ask your doctor or visit healthpartners.com/formulary.

3 Rely on HealthPartners Mail Order Pharmacy

- HealthPartners Mail Order Pharmacy is a quick and easy way to fill your prescriptions. No driving, no waiting in line and no shipping charges!
- Plus, you will probably save on the amount you pay for your medications! To get started, call 952-833-0497 or 1-888-356-6656 or visit healthpartners.com/mailorder.

4 Use our online tools

- Use the online Drug Cost and Copay Calculator to compare medication costs, mail order pricing, find generics and discover other ways to save on your prescriptions.
- HealthPartners online tools can also help you find a network pharmacy, view and print your claims, check for potential medication interactions and research information on both prescription and non-prescription medications. To get started, please visit healthpartners.com/pharmacy.

5 Save money with the Half-Tablet Advantage program

- Cut your prescription bill in half with select medications when you use HealthPartners tablet-splitting program. With this program, you save money when you split higher strength tablets into your prescribed dose. For example, instead of 30 lower strength tablets, you receive 30 tablets with twice the strength to last for 60 doses — two months for the price of one!
- For the list of eligible medications, please visit healthpartners.com/pharmacy.

Questions?

- Submit your questions online with the “Ask a pharmacist” tool at healthpartners.com/formulary
- Or, call Member Services at 952-883-5000 or 1-800-883-2177.
